

*Turn your resort into a year-round recreation center by using surfslides every season. Spring, summer, fall and winter mean it's always time to ride the slides.*

### ALL AGES & SKILL LEVELS

Beginner, Intermediate and Expert level slopes enable all persons to ride surfslides - all ages and abilities can safely use inner tubes, boogie boards, toboggans and sleds. Stand up riders can mountain surf every season. Similar to snowboarding with a crossover of surfing and skateboarding, the sport of surfsliding is a resort reality.

### SLOPE ENGINEERING

The LawnSurfing Companies create systems-engineered surfslides with unique flexibility to follow and protect existing terrain attributes. SurfSlides promote:

Open Space Retention

Environmental Consciousness

Resource Consideration

'Green' Construction Techniques

Temporary and Permanent (removable) surfslide structures that are thriving living ramp systems

Dramatic reduction of disruptive, costly and time-consuming maintenance problems

# WHAT SURFSLIDES MEAN TO YOU

Seasons come and go. So too, do loyal customers and employees. People are your most important asset, and your resort must provide something new to keep them. A continuity of offerings will keep customers coming back for more. SurfSlides offer:

- \*A year-round sport similar to surfing, snowboarding and skateboarding
- \*Varying slopes and curves for all skill levels, from beginners to experts
- \*High traffic flow throughput
- \*Enables ski resorts to utilize large portions of their investment (access roads, ski lifts, lodges, stores) during off-seasons
- \*Can be installed as a stand-alone or as part of a theme park in areas where there are no oceans, lakes, snowfalls, or mountains, thus bringing the surfing experience to new areas
- \*Offer year-round employment to eliminate employment-seasonality and retain valuable human resources
- \*A Competitive Sporting Advantage
- \*Very short payback periods

*Inner tubing is not just for winter anymore!*

## SURFSLIDES & SKI RESORTS

No longer can a warm winter put you in financial straits. With a short winter, turn your resort into a surfslide park as soon as the snows melt. With a long summer season, continue operating the slides until the waters start to freeze. ***The weather no longer dictates what you do with your customers. Keep 'em sliding!***

## SOUTHERN CLIMATES

Our surfslides provide twelve months of water sports fun. Even in areas with no hills or mountains, we can customize contoured slopes on any surface, indoors or out!

### **Environmental Benefits include:**

- \*Recycled Material use that is both durable and aesthetically pleasing
- \*Rapid Drainage with root-zone protection and slope erosion control
- \*Biodegradable systems add to health and speed of root-zone development
